

Tawny Newsletter
Summer Term 2018

We are now back and ready for our summer term! We had a wonderful time at the National Forest and the children were extremely well behaved. Many children faced their fears on the high ropes and enjoyed getting muddy on the barefoot walk. The children had an opportunity to develop their practical skills whilst putting together a scooter. The zoo gave the children an opportunity to learn about the rainforest and find out about various animals. We will be carrying out work linked to our zoo visit in class. Our final day at Moira Furnace took the children back in time and they are now experts at doing the laundry!

In history the children will be learning about the Romans and in geography they will explore different countries and find out which continent those countries are in. Year 3's will be going swimming this term so please ensure that the children have their swimming gear with them on Wednesdays. Tawny Owls will also have sessions about healthy living this half term. In science we will be continuing to investigate state of matter before moving on to sound and light.

The children produced some amazing pieces of homework last term which were shared and enjoyed by the children in class. Please try and complete at least one of the homework options on the 'I can also...' section of the homework sheet. If you have any questions, then don't hesitate to pop in and please feel free to come in and look at our displays/big books of the wonderful work the children are producing. Remember to bring in suitable PE kits for all weathers, including sun cream and hats for warmer days.

Thank you
Miss Haigh
