

Elf Owls  
Spring Term update

Welcome Back!

This is great practise for the phonics screening as children do have to read real and nonsense words in the assessment.

PE

Our PE days will continue to be Mondays with a multi skills coach and now we have gymnastics on a Thursday with a coach. Please make sure you send a PE kit with your child's name clearly labelled.

Homework

The new homework sheet is in the homework books. The format is the same. Please complete the essential task - reading, spelling and number practise - but feel free to do as many or as few of the optional tasks as you wish. The yellow book is for you to use for this.

If you have any questions or queries please feel free to call in or ring. If you need a longer chat, after school is always better.

Kind Regards,

Mrs. Harpham

Welcome back everyone! Although it definitely is not spring, this is our first half of the spring term!

Topic number 3!

This half term we will be casting spells and performing astounding magic - prepare to be amazed!

We will be looking at Winnie the Witch stories and creating light and dark pictures. We will be investigating materials that change and experimenting with potions in science.

We will look at illusions and how these can make us think we see something when we don't.

Writing

We will be writing instructions for a magic potion and spell using our Talk for Writing approach. The main focus for our writing skills is writing sentences using time words such as first, then, next, finally and also making sure we spell them correctly.

Reading

We will still be having some 'Library Time' in school once a week. We hope you enjoy sharing these books with your child.

Phonics

Children will still have daily phonics where we learn new sounds and how to say, write, blend for reading and segment for spelling.

We will spend more time reading individual words with the sounds in to make sure we are secure in reading them. I will also send home nonsense words in the spelling lists to read.
