

Clean Rail Energy, provided by Hambleton Village – project proposal...

The profits from a project like this would be used to benefit Hambleton's local community. Please read about it and submit your thoughts to: hambleton@yorkcommunityenergy.org.uk

Or Scan the QR code and complete the Questionnaire:

The organisers NEED your input, for or against.

Then join the summary of findings meeting, or drop in, on 7th November to find out more

Clean Rail Power at Hambleton Junction

What's the project?

The future of our rail network is renewable. In partnership with Riding Sunbeams, York Community Energy are exploring the feasibility of connecting renewable energy generation to supply power directly to the East Coast Main Line through the feeder station at Hambleton Junction.

Who are we?

York Community Energy
are a not-for-profit
community benefit society
working on renewable energy
and energy advice.

Riding Sunbeams
are a social enterprise
pioneering community
solar rail integration.

What do you think?

We think that community-owned renewables could supply the railway, to put local residents in the driving seat of local energy generation. Let us know your views on building renewable energy generation at Hambleton Junction by **filling out our survey - scan the QR code or visit yorkcommunityenergy.org.uk/hambleton_junction to find out more.**

Get in touch: hambleton@yorkcommunityenergy.org.uk

This feasibility project is funded by the Great British Energy Community Fund, managed by the North East & Yorkshire Net Zero Hub

PUBLIC MEETING

Renewable energy at Hambleton Junction

York Community Energy is exploring how community-owned renewable energy could power the railway at Hambleton Junction.

Join us at **Hambleton Village Hall** on **Saturday 7th November** from **10:30am** to discuss where and how local renewables near Hambleton could work for local benefit.

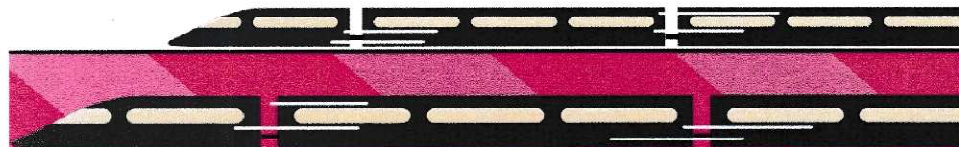

10:30 - 11:30 Public meeting: Review of our final report regarding community views on the project

11:30 - 13:30 Drop-in session: Come along to find out more, discuss the project, and share your views

Free entry, refreshments provided.
