

## Writing Overview

Teaching of Writing at Hambleton CE Primary School is carried out through discrete writing lessons and pupils are given further writing opportunities through topic work.

We ensure that there is progression and continuity in the writing purposes that we give the pupils. Teachers should update this record of the writing tasks that they use as required to keep it reflective of how we cover all the necessary writing purposes in our classes. Each writing purpose should be covered at least once in a year

In addition to the writing taught in discrete lessons, the pupils will have opportunities for writing in other subject areas.
